

Across The U.S.A.

BZN

Got on board at 5 p.m. In such a big white silver bird To see the
earth below from high above Oh boy, it thrills me do you know

High speed travelling to the U.S.A. We see the Westcoast down below
And when the wheels will touch The Californian ground Hello, my crazy lazy days

And then I'm playing on the old guitar

I don't care much for money It's all for you my honey If I can
only be in L.A. Won't you go let me show It's all to happen across the U.S.A.

I don't care much for money It's all for you my honey If I can
only be in L.A. Won't you go let me show It's all to happen across the U.S.A.

I buy myself an old limousine Run down the highway 65 And we'll
fly up to the mountaintops Where we enjoy the countryside

And then I'm playing on the old guitar

I don't care much for money It's all for you my honey If I can
only be in L.A. Won't you go let me show It's all to happen across the U.S.A.
