Down The Drain

BZN

There was really not the slightest danger
I thought our love would last eternally
But the drawing power of a stranger
Hit y'and brought you down to your knees

Much to my regret I cast a look at her
Now we went up on a pleasure trip, that ruined us so fatally
Whoaaa-whoo-hooooo

Down the drain
All my life and all my loving down the drain
Down the drain
I played all or nothing, but I lost the game

For just a silly love affair
I went for broke, but now I know it ain't worthwhile
Everything that I have lived for is down the drain

I remember how we lived in clover
Thought that nothing could tear us apart

Then to my regret I cast a look at him
And we went up on a pleasure trip, that ruined us so fatally
Hoooo-hoo-hooooo

Down the drain
All my life and all my loving down the drain
Down the drain
I played all or nothing, but I lost the game

For just a silly love affair
I went for broke, but now I know it ain't worthwhile
Everything that I have lived for is down the drain

Down the drain
All my life and all my loving down the drain
Down the drain
I played all or nothing, but I lost the game

For just a silly love affair
I went for broke, but now I know it ain't worthwhile
Everything that I have lived for is down the drain
Everything that I have lived for is down the drain
Everything that I have lived for is down the drain
