

From Here To L.A.

BZN

Every day, it's working all the time
Monday morning and Friday's on my mind
All the days may seem to be the same through the year
Still looking forward to your company

Then July, a blue sky's blue's the sea
I pack my bags, the things for you and me
Highway, you may lead us to the land of the sun
I'd like to be forever on the run

Every morning freedom is calling
A funny feeling that came over me
When we're talking, slowly we're walking
Along the road, baby, easy we go

Hey driver give me a chance
Don't take away a romance
We're on our way from here to L.A.
Hey won't you stop for a while
If so we'll give you a smile
And you will never forget
That we have met

Home again, we're dreaming night and day
The good times that we had, they drift away
All the days may seem to be the same through the year
Still looking forward to your company

Every morning freedom is calling
A funny feeling that came over me
When we're talking, slowly we're walking
Along the road, baby, easy we go

Hey driver give me a chance
Don't take away a romance
We're on our way from here to L.A.
Hey won't you stop for a while
If so we'll give you a smile
And you will never forget
That we have met

Hey driver give me a chance
Don't take away a romance
We're on our way from here to L.A.
And you will never forget
That we have met
