Gypsy

BZN

A Paris night, an old-time café
The lights are low, on the Champs-Elysées
When darkness rules the city of delight

Marie Jolie, your Gypsy eyes
Must be the key to paradise
La vie en rose will smile at me tonight

Gypsy guitars sound through the night
Gonna make you feel so free and wild
Dancing a dance in the firelight
To feel your body close to mine

And while the Gypsy's playing la la la la la la
We spend the night together la la la la la la
The way you whisper, oui je t'aime
Oh, oui je t'aime Marie Jolie

And while the Gypsy's playing la la la la la la
We spend the night together la la la la la la
The way you whisper, oui je t'aime
Oh, oui je t'aime

A broken dream, a burning desire
It sets my lonely heart on fire
This heart of mine is aching all the time

Gypsy guitars sound through the night
Gonna make you feel so free and wild
Dancing a dance in the firelight
To feel your body close to mine

And while the Gypsy's playing la la la la la la
We spend the night together la la la la la la
The way you whisper, oui je t'aime
Oh, oui je t'aime Marie Jolie

And while the Gypsy's playing la la la la la la
We spend the night together la la la la la la
The way you whisper, oui je t'aime
Oh, oui je t'aime

And while the Gypsy's playing la la la la la la
We spend the night together la la la la la la
The way you whisper, oui je t'aime
Oh, oui je t'aime
