

# Lord Help Us

C-Murder

Our world is hopeless, and we have no where to go  
Our children are hungry, and we can't feed the poor  
Were really hopeless, spread some love before  
And love that and hold in  
Lord I really miss my friends  
Lord please help us

Now as I walk through the streets I see many people under pressure  
Cause uh life ain't easy and you know this world gon' test ya  
My daddy told me C one day you gon' be faced with this problem  
And you and only you must find the knowledge to solve it  
My momma said Lord gives us tests to measure our faith  
And if you really believe in God, then you shall smile on judgement day  
Cause at the crossroads ain't no hunger, and every man the same color  
And when it's my time to open 'em gates cause uh  
I really miss my brother  
And you the only man that can judge me  
So please guide me to the right direction  
And why can't I put this gun up and use my Bible for protection  
And it's an everyday struggle, don't expect nothing to change in a week  
But Lord help us in this hopeless world  
Cause I don't wanna die in the streets

Now I done been stop shedding tears, now my eyes bleed when they cry  
And I never understand why, everybody gotta die  
And everything that's born gotta go, and I really think that's a shame  
And I'm so tired of reminiscin'  
Trying to put a face to a name  
You put my grandfather in my life, and then you took him away  
Yeah, big daddy used to drink but uh, he gave me a place to stay  
And many kids starving overseas, and even right here on my block  
My auntie told me in the year 2000 that the world was gon' stop  
Now I don't wanna question you Lord, but is violence really the answer  
And if not, then how come so many innocent people diein' of the cancer  
Now revolutions say the world gon' end, but the world ain't over yet  
And it's up to us to move on, but in our hearts we'll never forget

They say God created man, and put man on this earth  
And then came woman from there, and from there, there was birth  
And ever since Eve gave Adam the apple, the bible's like the spell  
And introduced mankind, not only to Heaven, but a place called Hell  
Even though we try to repent, it's too many gangstas taking us down  
My cousin tried to leave the streets, and now he laying in the ground  
And Jesus died for our sins, but I wonder if he wasted his time  
Cause it's 1999, and this world is still blind  
Now I don't wanna lose my freedom, cause I'm this close to making it big  
Now I don't know if I'm a make a difference  
But I just wanna be there for my kids  
Now that's a hopeless situation, when will it end, I don't know  
But Lord help cause your children, ain't got no where else to go
