

Wanna Be Like U

C.N.Blue

Let's make a run
From all we know
We'll find a way and get back stronger again
Too many times
I've wondered why
I feel ashamed only to be around

I'm living a lie,
But trying to find a way
Out of this

I wanna feel. I wanna bleed
I wanna live like there's no tomorrow
I wanna scream out in the night
I wanna make love like there's no tomorrow
I wanna be like you

Let's run away into the dark
We'll find a light
And get back stronger again
I'll get around I'll come around
I'll stay awake
Cause I am dying for more

Been living a lie more than a lifetime
Now I see

I wanna feel. I wanna bleed
I wanna live like there's no tomorrow
I wanna scream out in the night
I wanna make love like there's no tomorrow

I wanna be like you
I wanna be like you
I wanna be like you
I wanna be like you
I wanna be like you

I wanna feel. I wanna bleed
I wanna live like there's no tomorrow
I wanna scream out in the night
I wanna make love like there's no tomorrow

I wanna feel. I wanna bleed
I wanna live like there's no tomorrow
I wanna scream out in the night
I wanna make love like there's no tomorrow

I wanna be like you
