

Where You Are

C.N.Blue

I'm breaking down I am screaming out
My time is running out What do I do now
Oh, give up? Or stand up? I don't know.
I wanna break the spell now

I'm drowning now,
Sakebi wa mou kagayaku koto wasureta tsuki no you sa
Somewhere lady, look and smile at me. Yeah-
I'm searching where you are
Oh, shining down on me from where you are
I'll always be right there, baby, always'll be right there, baby
Oh, please touch my body and my face

I'm searching where you are
Can you see what I need is where you are
I'll always be right there, baby, always'll be right there, baby
You know when I can be where you are
Only then I will shine bright

I'm tumbling down, I'm falling apart
My time is running out What do I do now
Oh, give up? Or stand up? I don't know.
I wanna break the spell now

Ochite ku I'm losing myself
Furueru te wo hi no ataru basho eto
Somewhere lady, look and smile at me. Yeah-

I'm searching where you are
Oh, shining down on me from where you are
I'll always be right there, baby, always'll be right there, baby
Oh, please touch my body and my face

I'm searching where you are
Can you see what I need is where you are
I'll always be right there, baby, always'll be right there, baby
You know when I can be where you are
Only then I will shine bright
