

## Just Letting You Know

Ca\$h Out

I've been broke since letting you know  
Now everywhere we go we put on a show  
Done came a long way from from swinging them blows  
Just letting you know, just letting you know  
Stuffing, rushing X in my shoes  
Running from the police breaking the rules  
And this ain't a fluke  
I'm just letting you know, just letting you know

I used to post up on the corner  
Singing blowing good marijuana  
Play with me and you is a goner  
Am just letting you know, just letting you know  
Hop out the pussy then hop in the kitchen  
You talking bout money then let's be specific  
And yea I'm so with it  
I'm just letting you know  
Break down is a perfect spot for ratchets  
Now a nigga cash out at versace  
Rich kinda fucked up from cooking up blow  
Just letting you know

I've been broke since letting you know  
Now everywhere we go we put on a show  
Done came a long way from from swinging them blows  
Just letting you know, just letting you know  
Stuffing, rushing X in my shoes  
Running from the police breaking the rules  
And this ain't a fluke  
I'm just letting you know, just letting you know

I'ma turn up for my people  
Everywhere we go is a sequel  
I'm from the streets you should know, the streets you should know  
Used to run away from the police  
Rob a nigga with a slow creek  
If you want drama gotta show me  
That's right  
Don't know why these niggas think I'm playin with em  
Choppers and them pistols man I'm staying with them  
Ain't tryng to go that route so we gon turn it up tonight  
Yo cash out bring em bags out, we gon turn it up tonight

I've been broke since letting you know  
Now everywhere we go we put on a show  
Done came a long way from from swinging them blows  
Just letting you know, just letting you know  
Stuffing, rushing X in my shoes  
Running from the police breaking the rules  
And this ain't a fluke  
I'm just letting you know, just letting you know

What you know about the pot on the stove  
We had no heat had to sleep in the cold  
When I'm on one knee gotta pray for the father  
Then hope some' make it up and get me out the struggle  
Hard times and emotion got me spit do or die

Put the beam on the cakes I ain't scared to pie  
And all I ever wanted was to be a ghetto superstar  
I done see my niggas take a loss and get better now  
And if they letting young niggas had trust  
Let them know ATL tryna buy them a car  
I want my all my niggas to make it  
If we don't we forever taken  
And this lying shit what made NBA most valuable players  
Feel like Kobe and bitch I got a shot  
Put a the tate on the nine so I shoot no sign  
And all these niggas out here be trapped  
But me and my niggas still get no spot  
Gotta make it for the nigas on the block  
And gotta make it for the niggas down the road

I've been broke since letting you know  
Now everywhere we go we put on a show  
Done came a long way from from swinging them blows  
Just letting you know, just letting you know  
Stuffing, rushing X in my shoes  
Running from the police breaking the rules  
And this ain't a fluke  
I'm just letting you know, just letting you know
