Ca\$h Out

Rich town made this beat  
Who made this beat?  
At the fuckin sun up  
At the autopilot poppin  
I said all the jury shoppin  
[?] All I need [?] All I need  
Preach

All I need, all I need  
All I need is some loyalty  
All I need, all I need  
All I need is some loyalty  
I'm a hold it down (down)  
Things go down (things go down)  
No turn around  
All I need is some loyalty (some loyalty)  
I talked to God to see if he can make it better  
And I kept saying seven letters  
Loyalty

Sound like the talk that I had with my nigga yesterday (watcha talkin' bout?)  
Waiting on the pills sitting down for pistol play  
I tell em yal need to keep ya head up  
And when pressure gets tight niggas don't let up  
But niggas gotta get wet up  
For thinking this is a set up  
Sounds like shit I feel man  
If I was in your shoes I'd kill a nigga  
I see you nigga (that real shit)  
Green dot, green dot, ass little foe (ass little foe)  
She got a little flag she like leave her alone  
Who can I trust family members  
Ooh this shit is stressful (this shit is stressful)  
Had to read up and got a good heart and left niggas extra  
Ride with my two (with my two), no extras (if only)  
Askin myself this question  
I'm feeling lonely  
Preach

Loyalty over Royalty  
She got a bag so she spoiled to me  
Long days she be holding me  
In her room and she starts calling me

Said she cheating and they don't even know it  
All I need, all I need, all I need  
All I need is to lean on her shoulder  
Real niggas cry too  
Real niggas die too  
But who is you to lie to?  
I won't lie, keep my L's high  
And I love who I lie too  
Free lie, free beef, free lawsuit  
And keep your mouth closed  
Don't you talk to that hoes

Every getting money nigga got those  
I'm a ride with my nigga (yea)  
I'm a die with my nigga (yea)  
Magazine with a magazine I'm bout one nigga (bluh)  
And my arms stay high (arms stay high)  
But she awfully damn good  
Freedom is a lie  
Bitch freedom is [?]
