

# Drive

Caamp

Falling fast  
Cause I wanna go with you  
Like how you wanted everything to be  
Baby sign my cast  
So I know it's you  
And blow a kiss  
As you leave

Call me up  
When you're walking home  
And tell me 'bout the shitty day you've had  
"Only love"  
Tattooed on your collar bone  
You hate it and it simply drives me mad

I get a little feeling  
There could be a place for us  
Drive through the night  
Drive through the night

And if you think you need it  
I can tell you, "Hang in tough"  
Just smile and drive  
Smile and drive, whoa

No one knows how long this lasts  
Try and make it sweet  
And all our lives and futures past  
We may never meet

So I get a little feeling  
There could be a place for us  
Drive through the night  
Drive through the night

And if you think you need it  
Well  
I can tell you, "Hang in tough"  
Just smile and drive  
Smile and drive
