

Fever

Caamp

Hold my shoulder
My garden puller
Yes child you are a dreamer
All the same

All your wonder
And all you're learning
Will turn it into something one day

Yes now rise up like a fever
Yes and give us a brand new day
Get up and be strong for you're already gone
And my darling, I'll be with her once again

Many times I've been down
Many times I've been low
Many times pulled under by a weight I don't quite know
And in the times I've strayed
And in my walking away
Oh I can't shake the need to come back home

Go now rise up like a fever
Yes and give us a brand new day
Get up and be strong for you're already gone
And my darling, I'll be with her
Yes my darling I'll be with her
Oh my darling, I'll be with her once again

Once again
Once again
Once again
