

## Great Heights

Caamp

Old man river what you doin that for, you know it aint gonna help

Old man river got his hands in the mud, looking for gold in the wishing well

Oh lady wind oh what I sight, hold me close on a winter night  
Oh lady wind a vision of great heights, and marry her I just might

I drink coffee while she's hangin lights, up on the Christmas tree

I'm not so lonely on those cold nights, now that she's holdin me

Old man river what you doin that for you know it aint gonna help

Old man river got his hands in the mud, looking for gold in the wishing well
