

On & On & On

Caamp

Standing on the edge with you
All the things we said we'd do
All the freckles on your face
Tell me of your storied grace

All the things I said to you
Felt them in my heart so true
Thousand miles from boy to faun
But it didn't feel that way at all

On and on and on
I'm yours
On and on and on
I'm yours

Standing on the edge with you
Eyes of green and sky of blue
All the while you try and guess
As your heart beats through your chest

Is it real, could it be true?
Sparks fly as I think of you
All the freckles on your face
Tell me constellations don't stay in space

I'm yours
On and on and on
I'm yours
I'm yours
On and on and on
I'm yours
I'm yours
On and on and on
I'm yours

As we walk among the fields
Of rosemary and daffodils
Holding fast to notions grand
Grateful to be here holding your hand

I'm yours
On and on and on
I'm yours
I'm yours
On and on and on
I'm yours
On and on and on
