

# One True Way

Caamp

One, two, three, four

Can you open up your heart  
To let love in and let love out?  
Sitting by your fireplace  
With a question on your mouth

All the things you said that I forgot  
Come back to me now  
As if I've forgotten to remember here

Is there one true way?  
Is there one true way?  
Is there one true way?  
Is there one true way?

And do we know enough about the human heart to let love start?  
It's written in the books  
It's written in the stars

Everything you said that I forgot  
I can now recall  
As if I've forgotten to remember here

Is there one true way?  
Is there one true way?  
Is there one true way?  
Is there one true way?

Is there one true way?  
Is there one true way?  
Is there one true way?  
Is there one true way?

Ooh. Ooh. Ooh
