

Penny, Heads Up

Caamp

Not sayin' you want you
Not sayin' you would
Not sayin' you have to
I'm just sayin' you could
Let it fall into motion
Carve our names in the wood
Oh, I'd drink up an ocean
Just you show you I could

Fallin' in love to a little tiny speaker
Rain so hard that our tent started leakin' on us
We ain't got much what we gots enough
When the going gets tough
We make our own good luck

Not sayin' you want to
Not sayin' you would
Not sayin' you have to
Just sayin' we could
Take all of the potion
Take hold of my hand
Ignore all the omens
Cause we know we can

Fallin' in love to a little tiny speaker
Rain so hard that our tent started leakin' on us
We ain't got much what we gots enough
When the going gets tough
We make our own good luck

Fallin' in love to a little tiny speaker
Rain so hard that our tent started leakin' on us
We ain't got much what we gots enough
When the going gets tough
We make our own good luck
