

Snowshoes

Caamp

I hope ya know if I go there, I'm going there for you
And if I go there, I won't be coming home real soon

We could laugh, we could shout
Sing a song to get it all out
Oh we could whisper
We could dance, run about
But you keep staring at each others mouths
Boy go on, kiss her

It's all the things she do
It's all the things she does
It's all the things she do
It's everything she does

Think there might be snow there, this time of year
You'll bring your snowshoes, and I'll bring the beer

We could laugh, we could shout
Sing a song to get it all out
Oh we could whisper
We could dance, run about
But you keep staring at each others mouths
Boy go on, kiss her

It's all the things she do
It's everything she does
It's all that we've been through
The things that make us, us

Go on and get it now
