

Somewhere

Caamp

Maybe I'm right on time
And you ain't going nowhere
Not until you're mine
Then we're going somewhere
Somewhere

Baby you're on my mind
Go and drive me crazy
Taking your sweet time
Whispering your maybes
Maybes

Maybe a trip to Boston
Maybe she's on your mind
We jumped the car in college
We've never been here before
I know that love is crazy
I know that love is there
I mean I hope we find it
Somewhere

Higher than you'll ever know
And you don't have to stay
You can let it go
Give it all away (hey)
Give it all away (hey)
