

Song For A Friend

Caamp

When all of your life
You've been alone
And you have found that it takes time
To heal the wounds of love

Don't throw it all out baby
You're good for another round
Don't throw it all out baby
You're good for another round

And all things you've tried
You're no good
You've got a lot on your mind
So misunderstood

Don't let yourself go crazy
You're good for another round
Don't let yourself go crazy
You're good for another round

It's just luck, ooh hoo
It's just luck, ooh hoo
Only luck, ooh hoo
And it hurts

And all of the times
You've tried and failed
Good luck came, deep inside
To get your point since you did not get

Don't count yourself out baby
You're good for another round
Don't count yourself out baby
You're good for another round

It's just luck, ooh hoo
It's just luck, ooh hoo
Only luck, ooh hoo
And it hurts
