

Waiting Up (For You)

Caamp

I've been waiting up for you
I'm waiting for you
I'm waiting for you
Waking up just how you act
Catching the lion
Catching the lion

Swear you don't, but you know it's true
I'm always waiting for you
I'm waiting for you
But, I could stay right here all night
And look at you in the light
You in the light

I've been thinking a long time
'Bout the way we come and go
You're not here for a long while
Honey
There's some things you should know

I spend a lot of years running
And out in the snow
You're not here for a long time, babe, away
Come and go-oh, oh, oh, oh-ah

I've been waiting up for you
I'm waiting for you
I'm waiting for you
Waking up just how you act
Catching the lion
Yeah, we're catching the lion

Swear you don't, but you know it's true
I'm always waiting for you
I'm waiting for you
But, I could stay right here all night
And look at you in the light
Yeah, you in the light
