

## Do It Again

Cab Calloway

I love the way you kiss  
Do it again  
I love the way you miss  
Do it again  
The sugar drips from your two lips  
Oh, so honey won't you kiss me again

I love the way you smile  
Do it again  
And every once and a while  
Do it again  
Oh, there it goes that wrinkled nose  
I'd love to see you do it again

You have a way of flirtin'  
That's why I'm certain  
From now on, you are mine  
Oh, there's no denyin'  
How lucky I am  
Oh! Oh! That's chillin' my spine

So won't you hold me tight  
Kiss me again  
And when we say "Good night"  
Do it again  
Oh, if one little kiss can bring said's bliss  
You simply got to do it, do it, do it again
