Drag Me Down

CABAL

Drag me down, bring me to my knees
Pull me through the filth and shower me in misery
I know the choices that I've made has left me marked eternally
Drag me down and bring me to my knees

I was born in blood and blessed with bad luck
Cursed to consume, I will never get enough
It never ends, my hunger never stops
It never ends, I am the bringer of nothing

I wear a crown of rot
I'm destined for damnation, but never letting up
Let it wash all over me, immerse me fully in suffering
I know the void awaits

I know the void awaits, my every deed is blessed by its grace
I know the void awaits, there's only one way out of this place

So just drag me down, bring me to my knees
Pull me through the filth and shower me in misery
I know the choices that I've made has left me marked eternally
Drag me down and bring me to my knees

Restless fiend
Enough was never enough, restraint was never taught
Soulless wretch forever marked by rot

I know the void awaits
I know the void awaits, my every deed is blessed by its grace
I know the void awaits, there's only one way out this place

Drag me down, bring me to my knees
Pull me through the filth and shower me in misery
Drag me down, bring me to my knees
My choices made has left me marked eternally

The void awaits
My every deed is blessed by its grace
I know the void awaits
Only one way out of this place
