

Magno Interitus

CABAL

Magno Interitus, the great decay comes for all of us
No one gets out, our lives are cloaked in the darkest shroud

The great decay is on its way
Through the concrete cracks it creeps, through every hole it seeps
True evil never sleeps, in the hearts of apathy it lives

Closed eyes, closed minds fall in line
Ignore the signs, we're out of time
Death rite

Already lost the fight, existence is a death rite
It's a death rite

Magno Interitus, the great decay comes for all of us
No one gets out, our lives are cloaked in the darkest shroud
We've sown the seeds of destruction
Now watch them sprout in violent eruptions
So close to our doom
Flowers of death in full bloom

Self-inflicted suffering
Self-inflicted suffering
All that lies ahead is misery
Man-made misery

Like maggots upon a corpse it feasts upon this doomed earth
But we're too blinded by the false light, to see we stand before the eternal night

Magno Interitus, the great decay comes for all of us
No one gets out, our lives are cloaked in the darkest shroud
We've sown the seeds of destruction
Now watch them sprout in violent eruptions
So close to our doom
Flowers of death in full bloom
