

Plague Bringer

CABAL

Raise your head and keep holding it high
Wear the crown of rot, just know that the end is nigh
How did you think that this would ever be alright?
Don't you see that you're blinded by the false light?

Worthless worship of wicked words
Whispered by snakes, trading monetary gains
For death and decay
There's no escape
We have sold our souls and we have dug our graves
We let the innocent blood stain our hands
Blindly obeying corrupt commands
We have become a fucking plague
All we do is take take take

We've become a plague

All we do is take take take
I've said it before and I'll say it again
This is the end and redemption's too late
All we do is take take take

Raise your head and keep holding it high
Wear the crown of rot, just know that the end is nigh
Has the light got you so mesmerised
That you no longer separate wrong from right?

We can't justify our actions in these times of need
Like you tell yourself to keep your rotting mind at ease
There can be no peace, while the mothers weep
No peace when death sweeps the streets

No peace while the mothers weep
No peace, no peace
No peace when death sweeps the streets

All we do is take take take
I've said it before and I'll say it again
This is the end and redemption's too late
All we do is take take take

We haven't even seen the worst
But we'll get what we deserve
Hell on earth

Hell on earth, watch it burn

We haven't even seen the worst
But I know we'll get what we deserve
Hell on earth
Now watch it burn

All we do is take
I've said it before and I'll say it again
This is the end and redemption's too late
All we do is take
