

# X-Ray Eyes

Cacophony

You got X-ray eyes  
I'm loose wandering through the night  
The animal comes out in sight  
Hidden eyes no visible disguise  
Can cover up your twisted mind

Now I wonder what you'd do  
If you saw me how I saw you

You got X-ray eyes, like diamonds in the night  
You got X-ray eyes, lookin' right through me

All alone, reflections in the mirror  
Coming out through the night  
Mind attack flashback like a nightmare  
Anticipate the light

Now I wonder what you'd do  
If you saw me how I saw you

Lights are out all across the city  
It's time to hit the streets  
There's no doubt, no compromise, no pity  
It's time for you to be beat  
Now I wonder what you'd do  
(What you'd do)  
If you saw me how I saw you

You got X-ray eyes, like diamonds in the night  
You got X-ray eyes, lookin' right through me

You got X-ray eyes, like diamonds in the night  
You got X-ray eyes, lookin' right through me
