

# Carousel

Cadillac Sky

This ride won't last forever, it's one circle 'round the sun  
There's no strings, no web waiting to be spun  
Can't you hear the music playing, it's a carefree circus song  
We'll rise and fall and land where we belong (and)

When the horses all touch down  
And the colors all stand still  
If you want to we'll buy one more ticket  
To the carousel

It's a politician's promise, it's a cannon in the dark  
If I tell you that you'll always have my heart  
So hold on to every heartbeat, tomorrow robs you blind  
Love is sweetest taken one trip at a time

And when the horses all touch down  
And the colors all stand still  
If you want to we'll buy one more ticket  
To the carousel

Gravity's our enemy, the world won't weigh us down  
We'll steal a glimpse of Heaven, and carve our name in the clouds

And when the horses all touch down  
And the colors all stand still  
If you want to we'll buy one more ticket  
To the carousel
