

Comfortable

Cadmium

Waking up now

You know that you've got my heart
Pullin' my dreams closer
I don't want feelings to start
As I'm leanin' over

So somethin' tells me that you're gonna
Lose a part of you
And I wouldn't want you to
I need to know now

When you're not around me
Are you happy with her?
Are you comfortable?
If you're not around me
Are you happy with him?
Are you comfortable?
Are you comfortable? Yeah

Been wasting time healing scars
Was tryna find some closure
(Find some closure now, find some closure)
We got it good, let's not stop
I just wanna hold ya
(Wanna hold ya, wanna hold ya, wanna hold you now)

When you're not around me
Are you happy with her?
Are you comfortable?
If you're not around me
Are you happy with him?
Are you comfortable?

When you're not around me
(When you're not around me)
Are you happy with her?
(Are you happy with her?)
Are you comfortable?
If you're not around me
Are you happy with him?
Are you comfortable?
Are you comfortable? Yeah
