

Remember when love was all that matter, I do
Remember how I used to make you laugh until it hurt
Now those memories felt like thorns on a bush
A rose I can no longer touch

You're just another scar placed on my heart
A sign that we are made to be apart
And even though you might not be the one
I'm gonna miss you daily
We fought so hard, we drag us down
And basically watch how we had drowned
And even though I know you're not the one
I'm gonna miss you daily

You're just another scar placed on my heart
A sign that we are made to be apart
And even though you might not be the one
I'm gonna miss you daily

Broken, but I know I'll get over you
I'll try to focus on what's in front of me and not behind
What is life without the one you love the most
Who I am without you

You're just another scar placed on my heart
A sign that we are made to be apart
And even though you might not be the one
I'm gonna miss you daily
We fought so hard, we drag us down
And basically watch how we had drowned
And even though I know you're not the one
I'm gonna miss you daily

I'm gonna miss you
(You're just another)
(You're just another)
I'm gonna miss you daily

You're just another scar placed on my heart
A sign that we are made to be apart
And even though you might not be the one
I'm gonna miss you daily
