Cadmium

Lie down  
And show me all your demons  
I might just make them my own

Don't lie  
I know what you've been scheming  
I've seen you cheating

So don't think I'ma treat you right  
If you tie me up you can't survive  
So come on join me yeah we'll let it slide  
Hmmm

You could call me  
Dangerous  
I could call you  
Scandalous

Told you we'd be painful, so shameful, yeah don't try to blame my love

You could call me  
Dangerous  
I'ma call you  
Scandalous

Darling we're so toxic  
Don't know why I love it  
I know  
It's dangerous

I know  
I wasn't what you needed  
I tend to take it too far

But lie down  
And breathe in for a minute  
I know you feel it

Just don't think I'ma treat you right  
If you tie me up you can't survive  
So come on join me yeah we'll let it slide  
Hmmm

You could call me  
Dangerous  
I could call you  
Scandalous

Told you we'd be painful, so shameful, yeah don't try to blame my love

You could call me  
Dangerous  
I'ma call you  
Scandalous

Darling we're so toxic  
Don't know why I love it

I know  
It's dangerous
