

Feel Good

Cadmium

I can feel the heat where my fire is
I can hear the beat like a siren
I can feel it deep in my bones

I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe
'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe

Walking around, I feel my body shake
It's trembling but now
Every motion that you make
Will lift me off the ground
And you know I'm so damn happy you're around
I can't control my shakes but that won't bring me down

I can feel the heat where my fire is
I can hear the beat like a siren
I can feel it deep in my bones

'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe
'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe

Got me tripping, tripping, tripping
Girl, euphoria
You got me tripping, tripping, tripping
Girl, euphoria

You got me loving you
So baby just come through
(Just come through baby)
I can't get you out of my head, girl
And you know I'm so damn happy you're around
I can't control my shakes but that won't bring me down

I can feel the heat where my fire is
I can hear the beat like a siren
I can feel it deep in my bones

'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe
'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe

Got me tripping, tripping, tripping
Girl, euphoria
You got me tripping, tripping, tripping
Girl, euphoria

'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe
'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe

Hey, pretty baby, you make me feel alive
(You make me feel like everything is fine)
I feel so good

'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe
'Cause I feel good when you show me around
Yeah, I feel good, why you running?
I feel good with your love, babe
Yeah, I feel good with your love, babe
I feel so good
