Feel It Too

Cadmium

I get chills
When I see your face
And when you smile
You make my heart race

I go crazy
When you walk my way
So just stop right there
And come make my day

Oh girl I know
That you do too
So let's stop playing
And see this through

Let me see those eyes
Staring in mine
Let me take you
On a date tonight

Girl let me love you
Like I do
Cause we both know it's true
My heart beats, on repeat For you girl

And I don't wanna be
Without you please
Let me be your man
Take my heart, cause you are
My world

Just say you feel it too
Just say you feel it to
Say you feel it too
Say you feel it too
Just say you feel it too

You're the one
I want to hold
I want to love you
Until we grow old

I wanna take you
Anywhere you'd like
So just say your wish
And I'll make it mine

I hope you know
That this is true
My heart is racing
At the thought of you

Let's make this last
And take it slow
Cause I don't wanna waste a minute
With you I don't

Girl let me love you
Like I do
Cause we both know it's true
My heart beats, on repeat
For you girl

And I don't wanna be
Without you please
Let me be your man
Take my heart, cause you are
My world

Just say you feel it too
Just say you feel it too
Feel it too
Feel it too

Just say you feel it too
Just say you feel it too
Say you feel it too
Say you feel it too
Just say you feel it too
