

## Fly Again

Cadmium

Broken bottles on the floor  
Our days never seemed to be so cold  
When I open the gaze  
I expect nothing from you  
'Cause all I've ever been was live up in blue

Would you help me out  
Would you help me to escape  
From the darkest night  
From the hell that you've made

I wanna know, I wanna know  
How to fly again, how to fly again  
I wanna know, I wanna know  
How to fly again (fly again)

(Fly again, -gain)  
I wanna know, I wanna know  
How to fly again

(Fly again)  
(Fly again)

When I open the gaze  
I expect nothing from you  
'Cause all I've ever been was live up in blue

Would you help me out  
Would you help me to escape  
From the darkest night  
From the hell that you've made

I wanna know, I wanna know  
How to fly again, how to fly again  
I wanna know, I wanna know  
How to fly again (fly again)

(Fly again...)
