

# Forever

Cadmium

You shut me out  
And push my back against the wall  
But I'm alright  
You held me down  
For far too long

Oh no  
Don't go  
I need you now  
I need forever  
And oh no  
Don't go  
I need you now  
I need forever

You never call anymore  
I know that its alright  
I'm moving on to something more

Oh no  
Don't go  
I need you now  
I need forever  
And oh no  
Don't go  
I need you now  
I need forever

I feel like letting go  
I feel like letting go  
I feel like letting go  
I feel like letting go

Maybe I was wrong  
Maybe I was so messed up about you baby  
I feel like letting go  
I know I can't control  
Myself when you're around me  
I'm moving on to something more

Oh no  
Don't go  
I need you now  
I need forever  
And oh no  
Don't go  
I need you now  
I need forever

Oh no  
Don't go  
I need you now  
I need forever, forever  
I need forever  
I need you forever

Oh no

Don't go  
I need you now  
I need forever  
And oh no  
Don't go  
I need you now  
I need forever

I feel like letting go  
I feel like letting go  
I feel like letting go  
I feel like letting go
