

Forgive Me

Cadmium

I fell from grace
No chance to erase what I did
And now I pray
We'll get back the flame that I miss

You walked away and left me cold
I hate myself for hurting you
And watching as your heart turns to stone
It's all my fault, I take the blame
Broke the rules in our game
On my knees I beg in vain, I beg in vain

You won't forgive me
I know I took it way too far
You won't forgive me
I won't deny I did you wrong
Tryna repent all my regrets
Wish I could take back the things that I said
You won't forgive me
You won't forgive me, no

Your mind don't change
Still stuck in the waves of the past
There's no escape
Still bound by the chains that you left

My faith is slipping through the cracks
I'm dying, tryna get it back
I'm half myself without what we had
It's all my fault, I take the blame
Broke the rules in our game
On my knees I beg in vain, I beg in vain

You won't forgive me
I know I took it way too far
You won't forgive me
I won't deny I did you wrong
Tryna repent all my regrets
Wish I could take back the things that I said
You won't forgive me
You won't forgive me, no

I'm breaking, can't take it
I'm lost 'cause our love is tainted
I'm aching, my soul is vacant
Vacant
I'm breaking, can't take it
I'm lost 'cause our love is tainted
I'm aching, my soul is vacant
Vacant

You won't forgive me
I know I took it way too far
You won't forgive me
I won't deny I did you wrong
Tryna repent all my regrets
Wish I could take back the things that I said

You won't forgive me
You won't forgive me, no

Oh no no no

You won't forgive me
You won't forgive me, no
