

Ghost

Cadmium

I need a scarecrow after what you did
Cause all of the birds know that I'm almost dead
I'm barely breathing
I'm barely awake
You left me in pieces
There's no more to break

Don't wake me up
Not in this century
Don't wake me up

Cause you're just a ghost inside my head
You're just a ghost you're never there
You're just a memory on my lips
You're just a ghost inside my head
Ooooo, ooo, oooh

I need an angel after what you did
Cause you were the devil you messed with my head
You lied to my mother
You lied to my friends
You said that you'd be there
But this never ends

Don't wake me up
Not in this century
Don't wake me up

Cause you're just a ghost inside my head
You're just a ghost you're never there
You're just a memory on my lips
You're just a ghost inside my head
Ooooo, ooo, oooh

Cause you're just a ghost inside my head
You're just a ghost you're never there

Cause you're just a ghost inside my head
You're just a ghost you're never there
You're just a memory on my lips
You're just a ghost inside my head
