

# Grand Escape

Cadmium

Steal cheat beg and borrow  
Maybe tomorrow I'll settle down

I just need I just need to feel  
Something to make it all real  
For now life is a dream

Nobody understands  
The pressure that weighs on me  
Till I can hardly see  
A way out of it

Don't tell me to be safe  
I'm chasing my demons away  
When there's only so much I can take  
I need a grand escape

Trapped in this enclosure  
When is it over I never know

I just need I just need to feel  
Something to make it all real  
For now life is a dream

Nobody understands  
The pressure that weighs on me  
Till I can hardly see  
A way out of it

Don't tell me to be safe  
I'm chasing my demons away  
When there's only so much I can take  
I need a grand escape  
Grand escape
