

High On You

Cadmium

So high on you
High on you

I was achin', found myself down and out
Then I saw ya, threw away all my doubts, yeah

In a second, on your drug I was hooked
Yeah, you got me, got me with just one look

You know you light it up, turn the fire up
You're the feeling I crave
Desire rising up, and my time is up, need you right away

I'm high on you
There's just somethin' bout the things you do
Intoxicated by your skies, I'm seein' blue
Your touch is what I'm so addicted to
I'm high on you, you

Lips like heaven, just the way that I dreamed
Put em on me, don't you get up and leave, no

Your eyes hold me, want you, can't get enough
My mind is racing, lost myself in the rush

You know you light it up, turn the fire up
You're the feeling I crave
Desire rising up, and my time is up, need you right away

I'm high on you
There's just somethin' bout the things you do
Intoxicated by your skies, I'm seein' blue
Your touch is what I'm so addicted to
I'm high on you, you

Real-life fantasy, more than ecstasy
Can't control the hunger burning deep inside of me
Need a remedy, so bring the chemistry
Give it to me, don't stop

I'm high on you
There's just somethin' bout the things you do
Intoxicated by your skies, I'm seein' blue
Your touch is what I'm so addicted to
I'm high on you
I'm high on you
There's just somethin' bout the things you do
Intoxicated by your skies, I'm seein' blue
Your touch is what I'm so addicted to
I'm high on you, you
High on you
So high on you
High on you
