

King

Cadmium

You're raging on and off but there's something wrong now
But I know that you never will get it
There's a truth that's inevitable, that you're a shame for me, ohhh

Legendary deeds made by men like false convictions
Events memorized written down like science-fiction
The world wide seas were once a borderline for nations
But ships were built the seas were crossed
Decades forsaken so bloodstained with fear
The guilt we attach, we try to wash away
I'mma break the rules

I'mma break the rules, for you
And you know it's true, you're through
I'mma be the winner (winner, winner)
The winner (winner, winner)
Be the champion! Yeah!
I'mma go on, I'mma go on
Cause I'm a warrior
I'mma go on, I'mma go on
Breaking the barrier
I'mma go on, I'mma go on
Cause I'm a warrior
Dodging the bullets I'm in it to win
Conquer my enemy, king!

It's going down!
It's going down!
K - you know that I'm the
I - you know that I'm the
N - you know that I'm the
G - KING

Warriors, to arms

Ohhhhhh...
Dodging the bullets I'm in it to win
Conquer my enemy, king!

You're not gonna be tough in a minute, nah!
Your body's gonna drop when you're in it
Take a punch, take a hit, eat the lead
I'mma gonna make you think you wish you were dead!
Violence making us fade into dust
Don't ever mix up your anger for lust
Ohhhh...

I'mma break the rules, for you
And you know it's true, you're through
I'mma be the winner (winner, winner)
The winner (winner, winner)
Be the champion! Yeah!
I'mma go on, I'mma go on
Cause I'm a warrior
I'mma go on, I'mma go on
Breaking the barrier
I'mma go on, I'mma go on

Cause I'm a warrior
Dodging the bullets I'm in it to win
Conquer my enemy, king!

It's going down!
It's going down!
K - you know that I'm the
I - you know that I'm the
N - you know that I'm the
G - KING

Warriors, to arms

Ohhhhh...
Dodging the bullets I'm in it to win
Conquer my enemy, king!

I'mma go on, I'mma go on
Cause I'm a warrior
I'mma go on, I'mma go on
Breaking the barrier
I'm the King the only King yah
Dodging the bullets I'm in it to win
Conquer my enemy, king!
My Kingdom
