

## Let Me Go

Cadmium

Baby, are you keeping time?  
Got a ticket to the sky  
Just like we said we would  
We've been running all our lives  
It's hard to compromise  
And just lie down for good

So let me go  
Never said that I'd be the type to let you know  
What's on my mind, if it's alright let me go  
Let me go  
'Cause you know I'll be fine, if it's alright let me go

Baby, do you know this song?  
Kinda feels more right than wrong  
So let's keep listening  
Could we play it one more time?  
'Cause in the silent moments  
It's like something's missing

So let me go  
Never said that I'd be the type to let you know  
What's on my mind, if it's alright let me go  
Let me go  
'Cause you know I'll be fine, if it's alright let me go  
Let me go  
'Cause you know I'll be fine, if it's alright let me...  
Let me go  
'Cause you know I'll be fine, if it's alright let me go  
Let me go  
'Cause you know I'll be fine, if it's alright
