

I can only imagine
How it is to be with you
From the first day I saw your face
I knew this love was true
But you're already taken
Nothing I can do
So I can only imagine
How it is to be with you

I can only imagine us both loving through the night
I can only imagine us together side by side
I can only imagine we're dancing in the moonlight
I can only imagine, I can only imagine

I want to know, if you will be
My favorite song, my little melody
If we could be a symphony
Then we would be, a perfect harmony

I don't want to live in this way
I really wish we never knew
Out of side and out of mind
I don't want to be with you
But the next time I saw your face
Nothing I can do
I just have to face the truth
All I want is to be with you

I can only imagine us both loving through the night
I can only imagine us together side by side
I can only imagine we're dancing in the moonlight
I can only imagine, I can only imagine

I want to know, if you will be
My favorite song, my little melody
If we could be a symphony
Then we would be, a perfect harmony

(Imagine, imagine, imagine, imagine)

I want to know, if you will be
My favorite song, my little melody
If we could be a symphony
Then we would be
