

## No Strings

Cadmium

You don't wanna be tied down  
No expectations when you come around  
Yeah, we work like that  
We work like that

You don't wanna feel too much  
Shut your heart off, when you crave my touch  
Yeah, we work like that  
We work like that

Bodies intertwined  
You and I  
Just want the physical  
We can keep it quiet  
Read your mind  
It's subliminal  
Chills run down my spine  
Take your time  
Yah it's chemical  
Yah it's chemical

We don't need to, put a label on it  
Spend the night, for the hell of it  
Got no pressure, to commit  
No questions asked  
No strings attached  
No strings attached  
No strings attached  
No strings attached

No strings attached  
No strings attached  
No questions asked  
No strings attached

I ain't gotta check your phone  
No complications when we come and go  
Yeah, we work like that  
We work like that

I ain't gotta worry 'bout  
Your habits and your runnin 'round  
Yeah, we work like that  
We work like that

Bodies intertwined  
You and I  
Just want the physical  
We can keep it quiet  
Read your mind  
It's subliminal  
Chills run down my spine  
Take your time  
Yah it's chemical  
Yah it's chemical

We don't need to, put a label on it

Won't kiss and tell, nobody 'bout it  
Got no pressure, to commit  
No questions asked  
No strings attached

We don't need to, put a label on it  
Won't kiss and tell, nobody 'bout it  
Got no pressure, to commit  
No questions asked

It's chemical
