

## Notice

## Cadmium

Another cigarette, rested on her lips  
She knows, she knows, I noticed  
No, I don't wanna fight like this  
Never really thought we would ride like this  
I really hope you noticed

I'm feeling good when I'm all alone  
I know it's bad but I need it  
So, I'm stuck on the eastside  
'Cause I really wanna know what it feels like  
To be somewhere else, to be somewhere

And I'm gonna run away  
All by myself, for myself  
I will be okay  
Just somewhere else, somewhere

(Erehwemos esle, erehwemos esle, erehwemos esle)  
To be somewhere else  
(Erehwemos esle, erehwemos esle, erehwemos esle)  
Somewhere

Here he goes again, bitin' on his lip  
I know he knows I noticed  
Had a feeling that I can't resist  
But know who many thought it would end like this  
We really don't deserve this (I really hope you'll notice)

We're better off when we're all alone  
I know it's bad but we need it  
Still stuck on your best side  
( 'Cause I really wanna know what it feels like)  
To be somewhere else, to be somewhere

I got to run away  
All by myself, for myself

I will be okay (I will be okay)  
Just somewhere else, somewhere

Erehwemos esle, erehwemos esle  
Somewhere else, hmm  
Erehwemos esle  
(To be somewhere else)  
Erehwemos esle, erehwemos esle  
Somewhere else, hmm  
Erehwemos esle  
(Somewhere)

Hold still, baby, soon we'll have the time  
To enjoy the things we like, you know this

All alone is where you like to be, baby  
All alone with me, I noticed

And I'm gonna run away  
All by myself, for myself

I will be okay  
Just somewhere else, somewhere

Erehwemos esle, erehwemos esle  
Somewhere else, hmm  
Erehwemos esle  
(To be somewhere else)  
Erehwemos esle, erehwemos esle  
Somewhere else, hmm  
Erehwemos esle  
(Somewhere)  
Erehwemos esle, erehwemos esle  
Somewhere else, hmm  
Erehwemos esle  
(To be somewhere else)  
Erehwemos esle, erehwemos esle  
Somewhere else, hmm  
Erehwemos esle  
(Somewhere)
