

Out Of My League

Cadmium

She love playin' hard to get
She got me starin' and she smilin' cause she knows it
She got me stressin' girl I swear
But she ain't caring cause I know got the most yeah

All of my time I been spending on you
You know you a diamond I swear that it's true
Oh how can you be, so out of my league
Cause everything I want, says you

Everything I want says you girl
Driving me insane call an Uber
Girl you got me going full throttle cause your body like a model wanna get a
little loose, yeah
(Wanna get a little)

Loose like the screws in my head I'm going crazy
Chase you around, oh I wish it didn't phase me
Ten out of ten but you know it
The likes on your Instagram pics really show it

Oh girl you have got me obsessed
I slid in your DM's and got left on read
You got my head so dizzy and weak
Cause you're so fucking out of my league
(Woo)

She love playin' hard to get
She got me starin' and she smilin' cause she knows it
She got me stressin' girl I swear
(So stressed)
But she ain't caring cause I know got the most yeah

All of my time I been spending on you
You know you a diamond I swear that it's true
Oh how can you be, so out of my league
Cause everything I want, says you

You're everything that I want
So baby let's get it on
Why you playing me like it's Uno
You're skipping my late night texts
Reversing what's in my head
Playing wild cards what you do though

So tell me why you're acting so lit
I'm giving you everything you ain't giving me shit
And maybe I got it but you won't tell me you want it
And damn I don't even know why I'm still trying to commit

Oh girl you have got me obsessed
(Girl you have got me obsessed)
I slid in your DM's and got left on read
You got my head so dizzy and weak
Cause you're so fucking out of my league

She love playin' hard to get

She got me starin' and she smilin' cause she knows it
She got me stressin' girl I swear
But she ain't caring cause I know got the most yeah
(Everything I want says you)

All of my time I been spending on you
You know you a diamond I swear that it's true
Oh how can you be, so out of my league
Cause everything I want, says you
(Everything I want says you)
(So out of my league, yeah)
(So fucking out of my, out of my)
(Cause you're so fucking out of my league)
