

Outcry

Cadmium

The streets are filled with blood again, nobody knows their names

They'd only be forgotten

I got this empty room cemented deep inside my veins

Don't wanna take the offering

Oh-oh-oh-oh

The more that they lie to us they keep igniting us

Oh-oh-oh-oh

They tell us that we are divided

Oh-oh-oh-oh

The more that they lie to us they keep uniting us

Oh-oh-oh-oh

So we start an outcry

So we start an outcry

So we start, so we start

So we start an outcry

I can't forget the ashes and the echo of your voice

I'm lost inside the aftermath

I'm burying the past but I can't silence all the noise

Survived but never really left

Oh-oh-oh-oh

The more that they lie to us they keep igniting us

Oh-oh-oh-oh

They tell us that we are divided

Oh-oh-oh-oh

The more that they lie to us they keep uniting us

Oh-oh-oh-oh

So we start an outcry

Ooh-ooh-ooh, ooh-ooh-ooh-ooh

Oh-oh-oh-oh-oh-oh

So we start an outcry

So we start, so we start

So we start

So we start an outcry

Oh-oh-oh-oh

Oh-oh-oh-oh

Oh-oh-oh-oh

Oh-oh-oh-oh
