

Sick Boy

Cadmium

I'm from the east side of America
Where we choose pride over character
And we can pick sides but this is us
This is us, this is

I live on the west side of America
Where they spin lies into fairy dust
And we can pick side but this is us
This is us, this is

And don't believe the narcissim
When everyone projects and expects you to listen to 'em
Make no mistake, I live in a prison
That I build myself, It is my religion

And they say that I am the sick boy
Easy to say, when they don't take the risk, boy
Welcome to the narcissim
We're united under our indifference
And I'm from the east side of America
Where we desensitize by hysteria
And we can pick sides but this is us
This is us, this is

I live on the west side of America
Where they spin lies into fairy dust
And we can pick side but this is us
This is us, this is

I am the- I am the- I am the sick boy
I am the- I am the- I am the sick boy
They say that I am the sick boy
Easy to say, when you don't take the risk, boy
Welcome to the narcissim
We're united under our indifference
And I'm from the east side of America
