

## Still Alive

Cadmium

We try to act like we know nothing about it  
And our friends don't care at all  
You said you'd do something but I really doubt it

You'd rather watch me fall  
Time and time again  
You'd rather watch me fall  
You'd rather see me crash and burn

Who's still alive?  
Who's still alive?

So many times  
So many nights I tried to say goodbye  
It's gone right

We try to act like we know nothing about it  
And our friends don't care at all  
You said you'd do something but I really doubt it

You'd rather watch me fall  
Time and time again  
You'd rather watch me fall  
You'd rather see me crash and burn

Who's still alive?  
Who's still alive?

Who's still alive?  
Who's still alive?  
Who's still alive?  
Who's still alive?  
Who's still alive?

It's gone right
