

Talk No More

Cadmium

Why don't we talk no more
I been trying to figure it out
Why don't we talk no more baby
I know that you think 'bout it too

Why don't we talk no more baby
I been trying to figure it out
Why don't we talk no more, yeah, mmh
I know that you think 'bout it too

You say that you want me, then you just go
My heart has been broken many times before
You're always avoiding telling the truth
Just tell me what's up or how do you do, yeah

Why don't we talk no more
Why don't we talk no more
Why don't we
Why don't we talk no more
Why don't we talk no more
Why don't we talk no more
Why don't we
Why don't we talk no more

Why don't we talk no more
With all our history, it's a mystery
That we don't talk no more, baby
Just say that you think 'bout it too

Why don't we talk no more (yeah)
With all our history, it's a mystery
That we don't talk no more, yeah, mmh
Just say that you think 'bout it too

You say that you want me, then you just go
My heart has been broken many times before
You're always avoiding telling the truth
Just tell me what's up or how do you do, yeah

Why don't we talk no more
Why don't we talk no more
Why don't we
Why don't we talk no more
Why don't we talk no more
Why don't we talk no more
Why don't we
Why don't we talk no more
