

## Willow Tree

Cadmium

You and me hanging from the willow tree  
Quietly drifting in the open breeze  
Suddenly the wind blows you away from me  
Now I see we were never meant to be

If only we could travel back in time (whoa)  
Right where we belong  
Maybe we'll never need a reason why (whoa)  
We danced until the dawn

If only we could travel back in time (whoa)  
Right where we belong  
Maybe we'll never need a reason why (whoa)  
We danced until the dawn

You and me born from the same branch and leaves  
Wild and free, living here in harmony  
Don't you see this is where you want to be  
But when you leave the world is never what it seems

If only we could travel back in time (whoa)  
Right where we belong  
Maybe we'll never need a reason why (whoa)  
We danced until the dawn

If only we could travel back in time (whoa)  
Right where we belong  
Maybe we'll never need a reason why (whoa)  
We danced until the dawn

You and me hanging from the willow tree  
Quietly drifting in the open breeze  
You and me hanging from the willow tree  
Quietly drifting in the open breeze
