

# Blend

Cady Groves

I never felt wanted  
I was always in the way  
And I knew that one day I'd have to leave

I never knew what love was  
But I was sure busy  
Doing anything to fix me

But I've been so scared, for so long  
I've been so empty, I'm sorry I'm wrong  
I never wanted it to be like this  
And it's not like I can blend  
Cause I can't

There's a bunch of big places  
Oh, you know they're calling my name  
I gotta run towards them, full speed

But I gotta keep saying  
To myself everyday  
"Is this something that you want?"  
And it's in your reach

I've been so scared, for so long  
I've been so empty, I'm sorry I'm wrong  
I never wanted it to be like this  
And it's not like I can blend  
Cause I can't  
I can't

Oh, well I think I just know that I can't.
