

Caught

Cady Groves

Invite me to your house
But you won't take me out
3 AM, drive of shame so lonely
You wanna keep it down
Don't let no one find out
Why can't you tell your mom about me?

Been down this road before
It hurts but I keep coming back for more
You hide me under your bed,
I wish you'd shout about me instead

I wanna get caught
Climbing in your window
Walking out the front door
We can let our friends know
I wanna get caught
Take me out to dinner
Let 'em take a picture
And tag me in it later
I wanna get caught with you
I wanna get caught with you

I know you think I'm dumb
I know you think I'm easy
And I do too, I just can't help it
Well I guess I still have hope
That you'll become a human
And that's why I always come running

Been down this road before
It hurts but I keep coming back for more
Wanna take you to a place
Where stoplights hits you when I kiss your face

I wanna get caught
Climbing in your window
Walking out the front door
We can let our friends know
I wanna get caught
Take me out to dinner
Let 'em take a picture
And tag me in it later
I wanna get caught with you
I wanna get caught with you
I wanna get caught with you
I wanna get caught with you

And we'll paint the town
Both end up right handed
Boy don't hide your face
Now that I've got you branded
Let 'em all find out
There's no more keeping secrets
Just gotta shout it 'cause

I wanna get caught

Climbing in your window
Walking out the front door
We can let our friends know
I wanna get caught
Take me out to dinner
Let them take a picture
And tag me in it later
I wanna get caught
Climbing in your window
Walking out the front door
We can let our friends know
I wanna get caught
Take me out to dinner
Let them take a picture
And tag me in it later
I wanna get caught with you
I wanna get caught with you
I wanna get caught with you
I wanna get caught with you
