Completely

Cady Groves

If you could see the way you just looked at me
The way your eyes catch what I can't see
You see the best of me
If I could freeze a frame of you kissing me
I'd slip it in the pocket of your jeans
baby, you got me
completely

If there is such a thing
as having just
one and only
Well I think I found him in you
such a waste
to give away
3 words in vain
so I think I'll save 'em for you

I was looking for light in all the darkest places
tracing it back through all the steps I've taken
to, to get to you

If you could see the way you just looked at me
The way your eyes catch what I can't see
You see the best of me
If I could freeze a frame of you kissing me
I'd slip it in the pocket of your jeans
baby, you got me
completely

Well if today's the day
when you ask me
if I will stay
well I think you know the answer
you love me
don't need no paper ring
I'll never leave
cause we're in this thing forever

I was looking for you before I knew your name
I'm tracing it back through all the steps I've taken
too, too good to be true

If you could see the way you just looked at me
The way your eyes catch what I can't see
You see the best of me
If I could freeze a frame of you kissing me
I'd slip it in the pocket of your jeans
baby, you got me
completely

I was nothing but a cold day
you're the coat that keeps the snow away
gotta love this feeling
you give me

hey boy, it's been a long day
come and lay your head next to me

don’t gotta have a reason
you get me
completely
